

XXVII ANNUAL CONGRESS OF THE IRANIAN
SOCIETY OF OPHTHALMOLOGY

بیست و هفتمین کنگره سالیانه

Amico Yasna Pars

Ophthalmology Newsletter

Dear valued partner

This special edition of our newsletter is about 27th annual congress of Iranian society of Ophthalmology which will be held on 4-7 December 2017. Like any other active companies in this field, we cherish the opportunity to be a part of this great event. Without a doubt this is the biggest and most prestigious Iranian Ophthalmologists gathering that we all were waiting for it.

Amico Yasna Pars as the official representative of many ophthalmic top brands such as Johnson and Johnson vision, Optos, Gueder, Alcon Vision Care, Huvitz and many others has the honor to actively participate in such a unique convention. As a gold sponsor it's an unexampled chance for us to meet with you dears in person, having your feedback and introducing our vast and newest portfolio.

We believe that with such a respectable partnership between us, we can hope to improve the quality of our products and services as they truly should meet the expectations of our partners, the great ophthalmologists.

Time	Topics	Moderator/s	Venue
08:00 - 10:00	Retina Subspecialty Day: The Role of Choroid in Fundus Disorders / Recent Advances in Vitreoretinal Surgery	Hormoz Chams, MD Khalil Ghasemi Falavarjani, MD Ali Tavallali, MD Hossein Ashraf, MD Hamid Ahmadieh, MD Ramin Tadayoni, MD Majid Abrishami, MD	Hall 2
08:00 - 10:00	Anterior Segment Subspecialty Day: Updates on Corneal Disease Diagnosis (Diagnostic Approaches) / The Latest Advances in Cataract Surgery	Firoozeh Rahimi, MD Alireza Foroutan jazy, MD Mozghan Rezaei Kanavi, MD Farid Karimian, MD Ramin Salouti, MD Siamak Zarei Ghanavati, MD	Hall 3
08:00 - 10:00	Glaucoma Subspecialty Day: Updates on Glaucoma Diagnosis	Ramin Daneshvar, MD Farideh Sharifipour, MD	Hall 4
08:00 - 10:00	Strabismus Subspecialty Day: Restrictive Strabismus (Case Presentation)	Ziaeddin Yazdian, MD Mohammad reza Talebnejad, MD Alireza Keshtkar jafari, MD Stephen P. Christiansen, MD	Hall 5
08:00 - 10:00	Ophthalmic Plastic Subspecialty Day: Updates on Oculo-Facial Plastic Surgeries	Abolfazl Kasaei, MD Gholam hosseyn Aghai, MD	Hall 6
08:00 - 10:00	Uveitis Subspecialty Day: Case Presentations	Alireza Hedayatfar, MD Mohamad Zarei, MD	Hall 7
10:00 - 10:30	Break		
10:30 - 12:30	Retina Subspecialty Day: Updates on Pediatric Retina / Update on Retinal Imaging	Mohammad mehdi Parvaresh, MD Chien Wong, MD Reza Karkhaneh, MD Alireza Lashay, MD Robert B. Bhisitkul, MD Mehdi Modarreszadeh, MD Masood Naseripour, MD Hooshang Faghihi, MD	Hall 2
10:30 - 12:30	Anterior Segment Subspecialty Day: Keratoplasty: FALK, LK, DALK	Mohammadali Javadi, MD Mahmood Jabbarvand, MD Hassan Hashemi, MD	Hall 3
10:30 - 12:30	Glaucoma Subspecialty Day: Updates on Glaucoma Treatment	Ramin Daneshvar, MD Farideh Sharifipour, MD	Hall 4
10:30 - 12:30	Strabismus Subspecialty Day: Paralytic Strabismus (Case Presentation)	Zhale Rajavi, MD Abbas Bagheri, MD Reza Asadi, MD Vincent B. J. Paris, MD	Hall 5
10:30 - 12:30	Ophthalmic Plastic Subspecialty Day: Oculo-Facial Plastic Surgery Case presentation	Mohammad Abrishami, MD Maryam Ale Taha, MD	Hall 6
10:30 - 12:30	Uveitis Subspecialty Day: Intraocular Drug Delivery for Management of Uveitis	Masoud Soheilian, MD Seyede Maryam Hosseini, MD Nazanin Ebrahimi adib, MD Hormoz Chams, MD	Hall 7
12:30 - 14:30	Lunch		
14:00 - 14:30	2017 Young Ophthalmologist Program, Ophthalmic Plastic	Ali Sadeghi Tari, MD Mohsen Bahmani Kashkouli, MD	Main Hall
14:30 - 16:00	2017 Young Ophthalmologist Programs , Strabismus / Retina	Zhale Rajavi, MD Mohammad reza Akbari, MD Reza Karkhaneh, MD Masood Naseripour, MD	Main Hall
14:30 - 16:00	Retina Subspecialty Day: Approach to Refractory Macular Edema	Masoud Soheilian, MD Ali Tabatabaei, MD Ferradoodon Farrahi, MD Mohsen Farvardin, MD	Hall 2
14:30 - 16:00	Anterior Segment Subspecialty Day: Refractive Surgery; Complications Management	Seyed mohammad Ghoreishi, MD Seyed javad Hashemian, MD Alireza Baradaran Rafii, MD	Hall 3
16:00 - 16:30	Break		
16:30 - 18:00	2017 Young Ophthalmologist Programs , Anterior Segment / Glaucoma	Mohammadali Javadi, MD Farid Karimian, MD Hamed Ghassemi, MD Mehran Zarei Ghanavati, MD Ghasem Fakhraie, MD Massood Mohammadi, MD	Main Hall
16:30 - 18:00	Retina Subspecialty Day: Case Presentations and video-Journal	Robert B. Bhisitkul, MD Fariba Ghasemi, MD Ahmad Mirshahi, MD Aminolah Nikeghbali, MD Nasi Samiy, MD	Hall 2
16:30 - 18:00	Anterior Segment Subspecialty Day: Anterior Segment Challenging Cases	Mohammad nasser Hashemian, MD Mehdi Hosseini Tehrani, MD Hossein Mohammad Rabei, MD	Hall 3

05 Dec 2017

Time	Topics	Moderator/s	Venue
08:00 - 09:30	Symposium: Challenges in Glaucoma Diagnosis and Treatment	Shahin Yazdani, MD Ghasem Fakhraie, MD	Main Hall
08:00 - 09:30	Symposium: IntraVitreous Pharmacotherapy	Morteza Entezari, MD Hamid Fesharaki, MD Heshmatollah Ghanbari Mobarekeh, MD Nasi Samiy, MD	Hall 2
08:00 - 09:30	Workshop: ICRS	Mohamad ali Zare mehrjerdi, MD Bahram Einollahi, MD Khosrow Jadidi, MD	Hall 3
08:00 - 09:30	Symposium: Orbital Trauma	Ali Sadeghi Tari, MD Farzad Pakdel, MD	Hall 4
08:00 - 09:30	Workshop: Pattern Strabismus	Mohammad reza Akbari, MD Abbas Bagheri, MD Arash Mir Mohammad Sadeghi, MD Vincent B. J. Paris, MD	Hall 5
08:00 - 09:30	Free Papers: Posterior Segment 1	Mehdi Modarreszadeh, MD Alireza Javadzadeh, MD Mohamadreza Akhlaghi, MD	Hall 6

Our first step toward ending The congenital Blindness

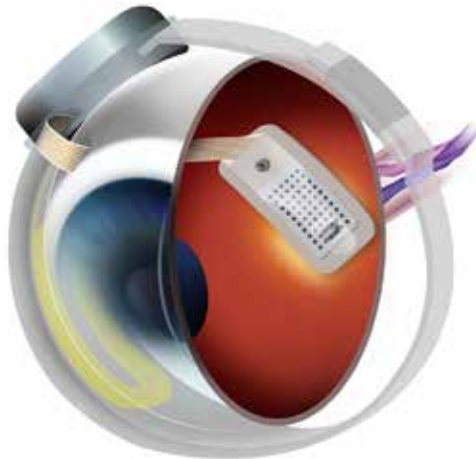

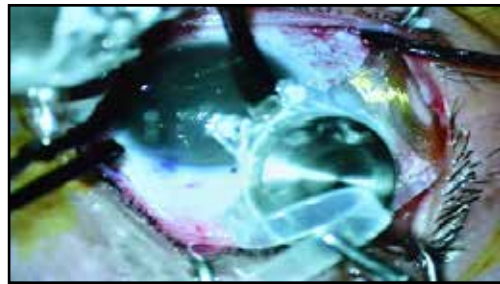

Argus II Retinal Prosthesis Implanted in First Patient in IRAN

We proudly announce a great news; the first Argus II Retinal Prosthesis, has been implanted in a patient's eye in Iran, through the capable and gifted hands of Iranian surgeons in Shiraz.

Argus II is an implantable visual prosthetic that intended to provide some useful vision to a blind patient.

The surgical procedure performed by Dr.Farvardin and his team at Khalili hospital, Shiraz, on two patients who suffered from blindness.

Amico Yasna pars wants to have this honor to congratulate this magnificent achievement to Dr.Farvardin and his team. This is a milestone for Iranian ophthalmology and its grace belongs to the whole Iranians.

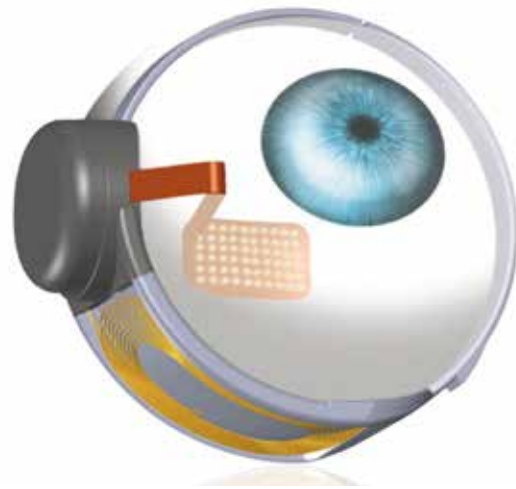

“This is our first step toward ending the congenital blindness.”

Dr.Farvardin added, “Today we observe a lot of scientific improvements in all fields of medicine, especially in ophthalmology in Iran. This operation is the result of long time efforts. This is one of the most complicated and advance surgical procedures in ophthalmology which took 5 hours to complete.”

About the Argus II Retinal Prosthesis System

Argus II System provides electrical stimulation that bypasses the defunct retinal cells and stimulates remaining viable cells inducing visual perception in individuals with severe to profound Retinitis Pigmentosa. The Argus II works by converting images captured by a miniature video camera mounted on the patient's glasses into a series of small electrical pulses, which are transmitted wirelessly to an array of electrodes implanted on the surface of the retina. These pulses stimulate the retina's remaining cells, intending to result in the perception of patterns of light in the brain. The Argus II was the first artificial retina to receive widespread approval, and is offered at approved centers in Canada, France, Germany, Italy, Netherlands, Saudi Arabia, Spain, Switzerland, Turkey, United Kingdom, and the U.S.
